PROFILE

I am a passionate UI/UX Designer with a strong focus on creating intuitive, user-centered designs. With a background in graphic design, I blend creativity and functionality to craft visually appealing and seamless user experiences. Skilled in wireframing, prototyping, and usability testing, I turn complex ideas into engaging digital solutions.

EDUCATION

Sabaragamuwa University of Sri Lanka,   08/2023 | Belihuloya
BSc (Hons) in Computing and Information Systems

Dharmaraja College, *G.C.E. Advanced Level*   2018 – 2020 | Kandy

---

PROJECTS

DocPet – All-in-One Pet Care App, *Individual Project* 🔗   2025
A user-centered UI/UX design for a mobile app addressing pet care challenges in Sri Lanka like emergency access and transport stress. The design emphasizes a calming and intuitive experience, featuring 24/7 clinic finding, home visit booking, tele-consultation, and digital health records for seamless pet
Technologies: Figma (UI design, Prototyping), Adobe Photoshop

Dispensary Management System, *Group Project* 🔗   2025
A community-focused system designed to digitize estate dispensary operations, streamlining patient record management and improving healthcare delivery efficiency.
My Contribution: Designed and developed the frontend for Admin and Doctor dashboards.
Tools & Technologies: Angular, Tailwind CSS, Figma

SeatX - Event System(Ongoing), *Individual Project* 🔗   2025
A user-centered UI/UX design for a smart event booking platform that replaces traditional maps with an immersive 3D Seat Visualizer. Key features include Context-Aware Smart Tickets and Indoor Map Navigation to guide users inside venues. The design focuses on eliminating booking anxiety through a seamless, cinematic interface.
Tools & Technologies: Figma (UI design, Prototyping), Adobe Photoshop

Blood Donor(ongoing), *Group Project*   2025
A modern, user-centered UI/UX design for a web platform that helps connect blood donors, patients, and hospitals across Sri Lanka. The design emphasizes accessibility, clear interaction flow, and emotional engagement, featuring donor registration, search filters by blood group and district, urgent request board, hospital management tools, and real-time availability updates to streamline blood donation and save lives.
Tools & Technologies: Figma (UI design, prototyping)
